**FOREVER YOUNG**

Why use the BodyFence film?

## TO PROTECT YOUR PAINT

In accordance with new legal requirements, car manufacturers are obliged to use water-based paints to better preserve the environment.

These paints are less resistant on the surface to scratches or impacts.

The BodyFence paint protection film has been developed by HEXIS for long-term protection.

Thanks to its anti-shock, self-healing and self-cleaning properties, the BODYFENCE protective film offers perfect protection.

There are a million causes of paint damage from stones and gravel to road debris. Resist the impact from these every day road hazards with BODYFENCE.

## SELF-HEALING

Should your paint become scratched, the BODYFENCE protective film will regenerate with the help of heat from the sun or hot water. Scratches appear on the car body when using automatic mechanical car wash brushes, when rubbing against bushes on road sides, during everyday use or due to an act of vandalism. All these scratches will disappear from the surface of the protective BODYFENCE film thanks to the heat of the sun or just rinsing with hot water. Your original paint is preserved ... Forever Young!

## SELF-CLEANING

WITHOUT

WITH

The BODYFENCE protective film contains an anti-adhesion component. Thus, dust and dirt will adhere much less to the car body. Cleaning will be less frequent and significantly easier.

## ULTRA TRANSPARENT

The BODYFENCE protective film is a highly transparent film developed to protect the vehicle without altering its appearance.

This film is available in both gloss and matt finish.

HEXIS BODYFENCE film in matt version will make any paint or gloss film matt.
